

Providence Health Care (PHC) Instructions for Obtaining Recommended Vaccinations and/or Tests

Step 1: Vaccination appointment booking

The following locations carry all vaccinations for PHC staff (including Hepatitis B):

- Shopper's Drug Mart 1125 Davie St (by SPH),
- Shopper's Drug Mart at Kingsgate Mall (by MSJ)
- Pharmasave 5791 Oak St (near Residential sites)
- Travel Medicine & vaccination centres (with authorization letter found on PHC Connect OH&S-Immunizations)
- **Print a copy of your employee vaccine & immunity status report and bring it to your appointment, so the vaccinator will know what is recommended.**

For additional vaccination/test information, the next time you are at a PHC computer, please visit PHC Connect-Occupational Health & Safety- Immunization page: <https://connect.phcnet.ca/life-career/occupational-health-wellness/immunizations>

Step 2: Baseline TB screening

- New employees to PHC who have not had a TST/CXR as a health care worker or as a student in BC will need a baseline on hire.
- Employees from out of province will need a baseline TST/CXR regardless of when they last were screened.
 - Check PHC Connect-Occupational Health & Safety-Immunizations: for TST clinic dates/times
 - For TB chest x-ray requisitions, please email: medinfo@providencehealth.bc.ca

Step 3: Report your vaccinations/tests

- If you have vaccination/test updates or records, please submit them using the Vaccination Status Self-Reporting tool at: <https://healthandsafety.healthcarebc.ca/> by selecting the “**Existing Employee**” option.
- If you receive vaccinations at a PHSA or Island Health staff immunization clinic, the records will be updated in your employee record accordingly.

Note: If your COVID-19 vaccine was given outside of BC, please use the link: <https://immunizationrecord.gov.bc.ca/> to register your COVID-19 vaccine into the Provincial Immunization Registry (please use Chrome).

Step 4: Self-look-up report

- To access your employee vaccination & immunity status, refer to the self-look-up report by selecting the link: [PHC](#) or by copying the link: <https://ohsbi.phsa.ca/sites/phc/OHS/WMO05003.rdl> (please use Chrome or Edge).
- Your self-look-up report is only accessible from the health organization networks.

Step 5: IF lab tests are recommended

If lab tests have been recommended for you, please follow up with a Health Care Provider (HCP) to discuss post-vaccine testing.

- **NOTE:** If you have had a previous Reactive (Immune) Hepatitis B titre (blood test), please contact the Provincial Workplace Health Contact Centre (PWHCC) to discuss this with a nurse before following the above instructions.
- Please follow up with your HCP for your titre results to determine if further vaccinations may be recommended.

If you are unable to access the online reporting tool or have vaccination questions or concerns, please contact the Provincial Workplace Health Contact Centre (PWHCC) Nursing Team by email at: HH@WHCallCentre.ca
